

CALL FOR PAPERS

April 21-24, 2025

Kansai Kenshu Center (KKC), Osaka, Japan

Information and computer technology play a vital role in several industrial sectors. The Asia Joint Conference on Computing (AJCC) provides a platform for engineers and scientists from both industry and academia to present their ongoing work, relate their research outcomes and experiences, and discuss the best and most efficient techniques for the development of reliable, secure, and trustworthy systems.

It also represents an excellent opportunity for the academic community to become more aware of subject areas critical to the software industry as practitioners bring their needs to the table. The 2025 AJCC will be held from April 21-23, 2025 at Kansai Kenshu Center (KKC), Osaka, Japan.

LIST OF TOPICS

The technical program of AJCC 2025 will consist of invited lectures, together with presentations based on submitted papers. Submissions can cover 10 topics of computer science, information technology, and computer engineering but not limit to

- (1) AI: Artificial Intelligence
- (2) SE: Software Engineering
- (3) KDM: Knowledge and Data Management
- (4) CSN: Computer Systems and Networks
- (5) MCG: Multimedia, Computer Graphics and Games
- (6) DSA: Data Science and Analytics
- (7) ES: Embedded Systems and Internet of Things (IoT)
- (8) CB: Computer Business
- (9) GIS: Geographic Information System
- (10) DP: Data Privacy

REGISTRATION

- All participants including speakers are expected to register and pay the registration fee.
